User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.

Statements in Block 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by user/installer before aircraft may be flown.

The Export Classification Control Number (ECCN) for this product is 9A991(d) 'Aircraft parts and components, n.e.s.' United States law prohibits disposition of these commodities to the Balkans, Burma, Cuba, Iran, Ivory Coast, Liberia, Libya, North Korea, Rwanda, Syria, Sudan, Zimbabwe and certain parties within Iraq unless otherwise authorized by the United States.

See <http://www.treas.gov/offices/enforcement/ofac/sanctions/>.

These Commodities, technology or software were exported from the United States in accordance with the Export Administration Regulations. Diversion contrary to U.S. law is prohibited. The Buyer agrees and certifies if knowledge that the commodity may be used in violation of U.S. laws or U.N. resolutions related to proliferation of weapons of mass destruction (missiles, nuclear, chemical or biological), terrorist or narcotics activities the Seller shall be given immediate notice.

****CERTIFICATE OF CONFORMANCE****

API certifies that the parts/materials covered by this document have been manufactured under one of the following approvals: (1) Parts produced under a Type Certificate #TC#, (2) Parts produced under a Technical Standard Order #TSO#, (3) Parts manufactured under a Parts Manufacturer Approval #PMA#, or (4) Industry Standards. This is substantiated by satisfactory documentary evidence at API or the original source of supply. These items are new, rebuilt, overhauled, or repaired unless otherwise noted. With the above statement being true and factual, the parts/materials supplied under this certificate are considered in compliance with the FAR#s or Industry Standards when they were shipped from API.
